FIRST LADY 1943

**The Senior Class of
Whitney High School
Toledo, Ohio
presents the
1942-43
First Lady**

Foreword

As the V for victory overshadows the emblem for Harriet Whitney Vocational High School, so the war effort becomes more important than school activities. In presenting the 1943 First Lady, the staff has found the task to be a pleasant one - - easy because there was so much to include - - hard because so much, of necessity, had to be omitted.

With regret, the staff announces this to be the last edition of the First Lady until the war is won. That this be an accurate record of a momentous year is our aim.

Dedication

Vocational education for girls in Toledo has had no more faithful advocate than our former instructor, Mrs. Ruth A. Hartnett.

Even though she has left our midst, there is "some portion of our hearts forever dedicated to her."

Mrs. Hartnett was born in Hudson, Michigan, November 12, 1891, where she received her preliminary education at Hudson High School. Majoring in commercial subjects at Cleary's College in Ypsilanti, Michigan, she later studied for her degree at Boulder and Columbia Universities.

Her first experience was in her home town where she taught commercial subjects at her alma mater. Other positions took her as far from Hudson as Marshfield, Oregon.

Teaching in Toledo for the past eighteen years, she was one of a small group who made a school like Whitney possible. To you, Ruth Hartnett, our deepest love and admiration in dedicating the First Lady of 1943.

V for Victory

W. for Whitney

The
watchword
for 1942 - 43
is victory. How-
ever, in working for
victory among nations let
us not lose sight of the greatest
accomplishment for each individ-
ual - - victory over self. The First Lady
of 1942-43 honors one who exemplified this
achievement in the ultimate. Those
students who were so fortunate as to
have received instruction from
Mrs. Harnett will never for-
get her calmness and
patience, outward
symbols of vic-
tory over
self.

FIRST LADY

This First Lady has been compiled during a year of a series of geographical, economical, and intellectual changes. Our nation is engaged in the greatest conflict for our preservation of democracy that the world has ever known.

We, of Whitney, have been willing to sacrifice to keep the torch of freedom ever lighting the path of independence for posterity.

In presenting the First Lady this year our aim has been to show the progressiveness of our school as an example of self-government.

GI-VO-HI

The GI-VO-HI Gazette is published by the students of Whitney every two weeks. The staff is aided by advisers, it is true, but they have little to say about the editorial policy.

The GI-VO-HI gets its name from Girls' Vocational High and was originally established to sponsor organized student opinion. The paper is still published for this purpose and to record important events of the student body.

The staff believes that the pages should contain mostly school news. Thus, the Gazette is of, by, and for the students.

As any new idea grows and improves with age, so the GI-VO-HI has attempted to advance its values and methods of publication.

FRIENDSHIP CLUB

The object of the Friendship Clubs is to promote appreciation and cooperation among the students. It is closely related to the Young Women's Christian Association, and gives excellent opportunities for recreation.

Skates, picnics, roasts, parties are a few of the activities the members enjoy throughout the year. Each club has at least one outstanding service project.

The Friendship Clubs of the City have conferences and gatherings which afford a means of becoming acquainted with those from other schools.

Meetings are held at Camps Walbridge and Storer for the leaders to discuss plans and yearly programs. Sunday afternoons are devoted to forums presented by joint committees from these youth organizations.

Outside of all-girl activities they also sponsor parties with the Macomber Hi-Y.

WHITNEY LIBRARY

LIBASO

In 1941 the Library Committee was originated, their purpose of which was to see that the student body and instructors learned more about the library. As the committee expanded, more students wanted to help. The resulting club, advised by Mrs. Nellie Gerold, and presided over by Esther Radecki, was christened LIBASO (Library Association)

That early wish has come true. The library is now used for its original purpose, devoted to a collection of books, manuscripts, etc. kept for use in study, reading, and situated for the custody, circulation, or admiration of such a collection.

PALETEERS

A small organization called the Paleteers, has been in existence since 1940. One day the art classes received an invitation to go to a party given by the art club of another high school. As a result of this party the Paleteers Club was formed.

The duties of the members are to help with art work on the First Lady and to decorate the school for holidays and special occasions. They also sponsor such social activities as dances, roasts, and entertaining other art groups.

SPORTS

Physical Education is designed for recreation and maintaining bodily fitness. There is a large variety of individual sports from which to make a choice. "Among the most popular are badminton, table tennis, and archery," reports gym instructor Elsie Gottshall.

Bowling and swimming are two activities outside of school. There are 125 girls enrolled in the bowling league which meets every week. The swimming classes held at the Young Women's Christian Association give the girls a chance to enjoy a summer sport in winter.

Modern and square dances are taught during the gym periods. The girls enjoy trying to become proficient in these.

Basketball and volleyball are the two principal team games. As part of the physical fitness program they help keep the girls in good condition and teach them the value of good sportsmanship and teamwork.
